Uluçinar

Uluçınar

noun ulu·cınar \ 'ulu-,chunar \

def: A variety of very large plane trees normally found at high elevations

With four sails and an experienced crew, the Uluçınar sails beautifully. Indeed, it is only when you see the Uluçınar under sail that you fully appreciate the craftsmanship of the boat and the seafaring skills of the captain and crew. From Istanbul to Antalya and beyond, the captain knows the Turkish coast intimately and will take you to quiet anchorages for some of the best swimming in the Mediterranean. The Greek islands are regular ports of call.

Uluçınar and Yaselam are sister gulets in the traditional round stern style.

The Oncu family has a sea-faring tradition dating back for many decades, and has been founded and run by brothers Mahmout and Derya. The sailing traditions are now being passed on to the younger generations of sons and daughters, with great pride.

A wonderful trip for three generations - fun,
under tarent and a wonderful scenery

The Grand Parents Guy &
Pierrette

Thank you so much for a memorable holiday
on your beautiful boat and your warm company.
We had a fantastic time and enjoyed discovering
the Turkish coasts. Frigge & Saskia
